

Three Classes being offered by Ron Stetkewicz:

1st Class: Friday Morning 9am – 12pm

Dremel 101

Students will learn how to whittle, drill, grind and polish with their Dremels.

The class will also discuss maintenance and care, as well as, proper handling of the tool. Please bring eye protection, dusk mask, smock and your Dremel. Students will come out with five sealife sculptures and the knowledge of their tool.

For Beginners.

10 students max.

\$50 per student

2nd Class: Friday Afternoon 1pm - 4pm

Soldering II Fireplace Tools

Students will learn to solder brass with their handheld butane torch. Precast parts and raw materials will allow students to experiment with the art on a familiar form. Students than can choose how to finish their pieces; polished or antiqued. Please bring handheld butane torch, dremel, smock, and eye protection.

For beginners and novice.

8 students max.

\$85 per student.

3rd Class: Saturday Morning 9am - 12pm

Dremel 102

Students will learn to use their Dremel to drill, grind and polish on Ron's Door Hardware.

Please bring Dremel. Students will complete several of Ron's Door pieces.

For Beginners

10 students max

\$50 per student
